### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Wolf on Thursday, March 03, 2005.

The application has been amended as follows:

Claim 1, line 7, inserted --using trapping means for-- after "and".

Claim 5. A method as set forth in claim 3 including the step of exterminating the insects and arthropods when using the trapping means ~~captured by the adhesive~~.

Claim 6, line 5, replaced "a trap" with --trapping means--.

Claim 6, line 6, replaced "containing" with --having--.

Claim 8, line 3, inserted --which-- after "chemicals".

Claim 8, line 5, replaced first occurrence of "the" with --a--.

Claim 14, line 2, replaced "for receiving" with --with--.

Claim 14, line 3, inserted --first-- before "container".

Claim 15, line 2, replaced second occurrence of "the" with --an--.

Art Unit: 3643

Claim 16. An insect/arthropod trap as described in claim 14 wherein the hood has holes spaced from one of the containers, said one of the containers having a surface consisting of fluorescent, UV reflective, or near-infrared reflective material such that, at a distance, two visible holes will be seen that may resemble the eyes of a mammal, with these holes permitting light to impinge on the one of the containers and allow alternative arthropod entry.

Claim 19, line 3, replaced "liquid" with --fluid--.

Claim 20, line 2, replaced "liquid" with --fluid--.

Claim 25, line 2, replaced first occurrence of "the" with --an--.

Claim 25, line 6, replaced "compartment" with --compartments--.

Claim 26, line 2, deleted "." at the end of "soda".

2. The following is an examiner's statement of reasons for allowance:

In regard to claim 1, the prior art of record does not disclose a method of disposing of insects and arthropods comprising providing a valve in fluid communication with at least one of the first and second containers, adjusting the valve to react the first chemical composition with the second chemical composition, and using trapping means for trapping the insects and arthropods attracted by the carbon dioxide emission for disposition.

In regard to claim 6, the prior art of record does not disclose an insect/arthropod trap comprising a control for metering the flow of the fluid in contact with the

Art Unit: 3643

composition or a trapping means positioned adjacent the means having the composition for trapping insects and arthropods.

In regard to claim 7, the prior art of record does not disclose an insect/arthropod trap comprising an opening disposed between the first and second containers to selectively mix the materials together, wherein the materials are mixed together in the second container to generate an insect/arthropod attracting gas or a member associated with one of the containers and having a surface on which an adhesive is applied for capturing insects attracted by the gas that alight on the surface.

In regard to claim 14, the prior art of record does not disclose an insect/arthropod trap comprising a base having a surface with an adhesive for capturing arthropods or a connector joining the two containers for conveying fluid from the second container to the first container when the arthropod attracting gaseous phase is to be generated.

In regard to claim 25, the prior art of record does not disclose a container with an adhesive at least partially extending about the outer surface of the container, wherein the adhesive is designed to trap insects and arthropods or a valve in fluid communication with at least one of the first and second compartments to control the release of at least one of the first material and the second material, wherein carbon dioxide is generated to attract insects and arthropods when the first material is mixed with the second material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
